PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant claims, among other things, a portable outdoor cooking apparatus including, a cooking surface having a first receiver and a second receiver, a frame hingedly attached to said cooking surface wherein said frame comprises a positioning ring and a handle and said handle weighs less than said cooking surface, and a post comprising a first segment and a second segment wherein said first segment removeably attaches for storage to said cooking surface first receiving port and said second segment removeably attaches to said cooking surface second receiving port for storage and wherein said first segment and said second segment removeably attach to form said post, and said post removeably attaches to said positioning ring to position said cooking surface along said post.

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references all disclose various forms of portable outdoor cooking devices reflecting the general background of the art. Many of the elements are shown by the prior art as

well. Nevertheless, the prior art of record, taken alone or in combination therewith, does not disclose nor make obvious the combination as claimed by applicants. Although, upon cursory inspection, it may appear otherwise, a detailed review reveals that the prior art fails to teach certain aspects of the claimed invention. One glaring example involves the structure claimed for storing the sections of the post. In addition, it should be noted that although some of the limitations are taught by various references of the prior art, a rejection based on obviousness would require use of impermissible hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
